Specifically, 1,934,097 Shares will be granted initially, representing 2.65% of the Company’s total share capital as at the Latest Practicable Date and accounting for 3.66% of the total number of Non-tradable and Non-listed Domestic Shares; and 525,903 Shares will be reserved,

representing 0.72% of the Company's total share capital as at the Latest Practicable Date, and accounting for 1.00% of the total number of Non-tradable and Non-listed Domestic Shares and 21.38% of the total number of Shares to be granted under the Incentive Scheme.

The validity period of the Incentive Scheme shall be 10 years from the date of approval at the AGM, unless it is terminated in accordance with the relevant provisions of the Incentive Scheme.

(b) Grant Date of the Incentive Scheme

After the Incentive Scheme has been considered and passed at the AGM, the Company will convene a Board meeting to grant equity to the Participants and complete the registration and other related procedures.

The Locked-up Period of the Incentive Shares granted to the Participants is 48 months, calculated from the date the Participants are granted the Incentive Shares.

The Incentive Shares shall be owned indirectly through the Employees' Shareholding Platform by the respective Participants once they are granted and fully paid up. Participants vote through Employees' Shareholding Platform at the general meeting, or they shall abstain from voting through Employees' Shareholding Platform in accordance with the Articles of Association and Hong Kong Listing Rules at the general meeting when necessary. The voting rights attached to a Participants' Shares granted through the Partnership are exercised by the general partner of the Partnership as directed by the partner's meeting as described below. and send a polling form and relevant corporate information (such as annual reports or shareholder circulars) to all Participants for their consideration and review of resolutions proposed at the meeting and giving voting instructions in those polling forms. Those polling forms are similar to proxy forms sent to Shareholders and provide the Participants with the options to vote in favor of, against or abstain from voting on each of the resolutions to be proposed at the general meeting, which shall be agreed by way of voting at the partner's meeting pursuant to the Partnership agreement. The general partner of the Partnership shall vote at the general meeting based on the results resolved at the partner's meeting. The general partner of the Partnership only vote based on the results resolved by the partner at the meeting. All voting results are reflection of the intention of the Partnership, and the Company and the general partner of the Partnership will not influence the voting decisions made by the Participants at the partner's meeting. The general partner of the Partnership will specify each of the numbers of shares voting in favor of, against and abstain from voting, in the voting paper of general meeting of the Company, respectively. The Board will ensure that the independence of the Participants will not be influenced by the voting procedures.

The general partner of the Partnership and the Participants will abstain from voting for equity shares held at the partner's meeting for the following reasons:

- (i) Shares of reserved interest not yet granted to any Participant, including reserved interest invalidated for not specifying the relevant Participants for more than 36 months;

These arrangements made by the Company are to serve the purpose of this Incentive Plan which is to effectively align the interests of the Shareholders, the Company and its core team. By enabling the core team to hold the Company's equity interest for a certain period of time, involve in the decision making of the Company, share the value growth of our equity as well as take certain risks at the same time, all parties share a great concern to the long-term development of the Company and therefore they will ensure the realization of the Company's development strategy and business objectives.

When a Participant is granted Incentive Shares, he/she is required to subscribe the corresponding property portion in the Partnership, that is, the Participant makes a payment for Share purchase and indirectly becomes a Shareholder holding the Company's equity which entitles him/her rights as a Shareholder. At the same time, in accordance with the provisions of the Incentive Scheme, this shareholding is locked and will be unlocked for transfer in realization of gains upon the satisfaction of the Company's performance evaluation targets and individual appointment requirements and individual performance evaluation targets in the future. (d) Unlocking Period arrangement of the Incentive Scheme

(a) Grant Price of the Incentive Shares

The Grant Price of the Incentive Shares under the first grant shall be RMB10.47 per Share; The Grant Price of the Incentive Shares under the reserved grant shall be RMB10.47 per Share.

(b) Basis for determination on the Grant Price of the Incentive Shares

Based on the fundamental purpose of promoting the development of the Company and safeguarding the interests of Shareholders, the Grant Price RMB10.47 of Incentive Shares under the Incentive Scheme has been determined in accordance with the principle of “**incentives with emphasis and effectiveness** (重點激勵、有效激勵)” and with comprehensive reference to the following factors:

- (i) the trading price of the Company's H Shares was approximately HK\$40.00 per Share (equivalent to approximately RMB32.50 per Share); and

(ii) the number of Incentive Shares granted this time and the incentive effects.

(c) Grant Price of the Incentive Shares at a discount or premium

- (i) Performance evaluation targets at the Company's level

This Incentive Scheme will take the financial indicators of the Company for year 2021 as performance evaluation targets. Achieving the performance evaluation targets is one of the Unlocking Conditions for the Participants and thereby determine the corresponding unlocking ratio. There are two performance evaluation targets at the Company's level: (1) based on the revenue from main businesses in the Company's audited consolidated financial statements for the year 2017 (RMB546.56 million), the growth rate of the revenue from main businesses in the audited consolidated financial statements for the year 2021 compared with that for the year 2017 shall not be less than 150%;

(2) based on the net profit attributable to Shareholders of the parent company in the audited consolidated financial statements of the Company for the year 2017 (being approximately RMB58 million after excluding the impact of non-recurrent factors such as foreign exchange losses, government subsidies and listing fees), the growth rate of the net profit attributable to Shareholders of the parent company (excluding the effect of non-recurring factors) in the audited consolidated financial statements of the Company for the year 2021 compared with that for the year 2017 shall not be less than 120%.

After the announcement of the audited consolidated financial statements for the year 2021, based on the achievement of performance indicators and the position and amount of subscriptions of the Participants, the total amount of Incentive Shares that can be unlocked shall be determined according to the following ratios:

Achievement of performance indicators	Subscription of over Subscription of less than		
	Senior Management	RMB200,000 (inclusive)	RMB200,000
Achieve both two performance evaluation targets	100%	100%	100%
Achieve only one performance evaluation target	50%	75%	85%
Fail to achieve both performance evaluation targets	20%	50%	70%

(ii) Evaluation targets of Participants at the individual level

During the four years from 2018 to 2021, the Company performed annual individual performance evaluations for all Participants according to the five grades of excellent, A, B, C and D. If the annual individual performance evaluation result of a Participant is excellent /A/B grade, the annual individual performance of such Participants is assessed to be “**up to standard**”; if the annual individual performance evaluation result of the Participant is C/D grade, the annual individual performance for such Participant is assessed to be “**not up to standard**”.

If the evaluation of a Participant are all “**up to standard**” during the four years evaluation period from 2018 to 2021, the Participant can unlock all the Incentive Shares held by them as per unlockable total amount specified in this Incentive Scheme. If a Participant experiences “**not up to standard**” during the four years evaluation period from 2018 to 2021, the Participant can unlock the Incentive Shares held by them based on the total amount of unlockable amount as follows:

Number of times not up to standard	Unlocking ratio based on unlockable amount
Once	75%
Twice	50%
Thrice	25%
Four times	0%

(c) Treatment of locked Incentive Shares

Locked Incentive Shares shall be repurchased by the general partner of the Partnership concerned. The repurchase price shall be the paid-up contribution amount of a Participant, and the cash dividends received by the Participants during the Locked-up Period shall be deducted from the repurchase price. The Incentive Shares which may not be unlocked held by the general partner shall be handled according to “**Liquidation of the general partner’s equity interest in the Partnership**” in (8)(c) of this Incentive Scheme.

(8) Exit mechanism upon expiration of the Unlocking Period of the Incentive Scheme

(a) Revenue realization of the Incentive Shares held by the Participants

If the Incentive Shares held by the Participants through the Employees’ Shareholding Platform expire during the Locked-up Period and the corresponding Unlocking Conditions are met, the following exit methods shall be implemented:

- (i) In the event that listing is not realized for underlying Shares of this Incentive Scheme within the validity period, the Company have undertaken to assist the transfer of the Company’s Shares reflecting the interests held by Participants through the Partnership to independent third parties within the validity period.

Participants must submit transfer applications to the general partner of the Partnership within 30 days prior to the transfer window period agreed with the Partnership each year. Such applications should specify their transfer sizes. The total number of the Company's Shares that a Participant requires the general partner to transfer is the product of the total number of Company's Shares held by Partnership at that time and the proportion of the Participant's equity interest in the Partnership. The general partner shall determine the timing and the price of a transfer during the transfer window period according to the negotiation with the transferee. After the Partnership has transferred the Company's Shares, the proceeds of such transfers of Shares net of tax withholding and Partnership fees in proportion to relevant interest in the Partnership will be distributed to each applicant for buying back the property share in the Partnership held by such Participant. Formalities of the above changes will be registered in the competent industry and commerce authorities in accordance with the relevant provisions of the Partnership agreement. When the Partnership transfers the Company's Shares at a price lower than RMB32 per Share, the relevant Participant(s) may require the de facto controllers of the Company to make up the difference between the actual transfer price and RMB32 per Share in cash. If the de facto controllers fail to pay the difference between the actual transfer price and RMB32 per Share to the Participant on a timely basis, the Company may deduct such amount from the dividend distribution and pay it to the Participant when the Company pays dividend to the de facto controllers. The Participant may require the de facto controllers to shoulder the default responsibility by submitting a lawsuit to the people's court with jurisdiction. These arrangements will enhance the incentive effect of this Incentive Scheme and foster greater willingness for participation in the Incentive Scheme. The de facto controllers of the Company will not directly or indirectly purchase the Company's Shares held by the Employees' Shareholding Platform. Therefore, the Board considers that these arrangements are fair and reasonable and beneficial to the Company and the Shareholders as a whole. The minimum exit price of the Incentive Shares under the Incentive Scheme is RMB32 per Share, which is determined based on the recent trading price of the H Shares of the Company.

- (ii) If, within the validity period, the Shares involved in this Incentive Scheme implement the listing and circulation plan, subject to compliance with relevant laws and regulations and requirements of relevant regulatory agencies and compliance with relevant regulations of the Articles of Associations, Participants may require the Partnership to sell the Company's Shares corresponding to his/her equity shares in order to gradually realize revenue from the equity shares.

Participants must submit share reduction applications to the general partner of the Partnership within 30 days prior to the reduction window period agreed with the Partnership each year. Such applications should specify their price ranges and sizes of the share reductions, and the general partner of the Partnership shall determine the timing and manner of the share reductions during the reduction window period. After the Partnership has disposed the Company's Shares, the proceeds of such transfers of Shares net of tax withholding and Partnership fees in proportion to relevant interest in the Partnership will be distributed to each applicant for buying back the property share in the Partnership held by such Participant. Formalities of the above changes will be registered in the competent industry and commerce authorities in accordance with the relevant provisions of the Partnership agreement. When the Partnership reduces holding in the Company's Shares at a price lower than RMB32 per Share, the relevant Participant(s) may require the de facto controllers of the Company to make up the difference between the Share reduction price and RMB32 per Share in cash.

The total number of the Company's Shares that a Participant requires the general partner of the Partnership to reduce is the product of the total number of Company's Shares held by Partnership at the time and the Participant's equity interest in the Partnership. The number of Shares of the Company that any Participant requires the general partner of the Partnership to dispose for a period of time must not exceed the product of the Total Share Reduction of the Participant and the percentage of reduced equity by the Partnership and/or the Participant allowed in accordance with any applicable laws, regulations or the Hong Kong Listing Rules during the period.

(b) Transfer of the Incentive Shares to specific targets by Participants

With the prior written consent of the general partner of the Partnership, the Participants may transfer his/her Incentive Shares Entitlement held in the Partnership to specific targets.

The Participants who transfer to a third party other than partners of the Partnership should notify the general partner and other limited partners of the Partnership 30 days in advance and obtain written consent from the same. The transfer price for transfer of Incentive Shares Entitlement by the Participants shall be negotiated between the transferor and the transferee. Under the same conditions, the general partner of the Partnership shall enjoy the right of first refusal; if the general partner of the Partnership waives the right of first refusal, the other limited partners shall enjoy the right of first refusal; if more than one limited partner are willing to purchase at the same

time, the parties shall negotiate and determine their respective proportion of purchase. Failing to do so, the proportion of purchases will be determined based on the proportion of their contribution to the Partnership at the time of the transfer.

(c) Liquidation of the general partner's equity interest in the Partnership

Within 12 months after expiration of the Lock-up Period of the Incentive Scheme, the Company shall repurchase at the price of RMB10.47 per Share and cancel the Incentive Shares held for the following reasons by the Partnership:

- (i) the reserved interests that have not granted to the Participants within 36 months;
- (ii) the Incentive Shares Entitlement to be repurchased from the Participants that cannot be unlocked due to that the Company's performance level has not reached the performance evaluation target or has not met the qualifications for appointment or individual performance evaluation requirement as stipulated in this Incentive Scheme; and

As for Participants who have not met the Unlocking Conditions, their Incentive Shares shall be repurchased by the Employees’ Shareholding Platform and shall be dealt with according to item (8) (c) “Liquidation of the general partner’s equity interest in the Partnership” under the Incentive Scheme.
